

## Training

We are convinced that apart from hardware and software, it is the human element, which is contributing to a great extent, in running successful operations. We take care of this important element by having specialized "Recruitment - Induction - Training Facility" dedicated in house. We insist on spending sufficient man-days on training to all category of manpower.

## About us

ABL is established logistics company with an aim to provide customer centric logistics solutions. We constantly strive for excellence in logistics operations through adoption of latest technologies and management concepts.

## Our AIM

To provide long term, consistent solutions in the field of supply chain and logistics by focusing on improvement of processes.

## Core Competence

- We study customer's supply chain process to suggest re-engineering of processes, if required and recommend suitable data capture equipments and WMS softwares.
- Ability to study the processes in detail using proven management tools.
- We design customized warehouse racking and material handling systems optimizing space and height.
- We achieve results as per requirement of Service Levels agreed with the customers.
- Ability to identify waste and redesign process to eliminate waste and practice Lean Management.
- Ability to recruit, train and retain manpower of different skills and experience.
- Abiding all Laws of the Land in Letter and Spirit.

## Approach

Our emphasis will be on :

- Process Improvement :  
Cost effective methods are applied to processes those are time consuming, costly and are modified, in consultation with client.
- Productivity Improvement :  
Multi-skilling the work force.  
Investment in training.
- Inventory Accuracy :  
We design processes and check such a way that physical and system stocks synchronize continuously. This gives enormous confidence about the data to work upon and eliminate huge time spent in searching.

## Our Commitment

We strive to be a world class warehousing company in the Logistics Field by providing International standard service and Value added services to our clients. We grow by providing encouragement, learning opportunities and open communication environment to all Staff and Workmen. We will set-up demanding standards of service upon ourselves to give ultimate satisfaction to customers.
